

RoomWizard room scheduling system

Steelcase

Can we meet here?

Book it now. At the room or your computer.

- Book a room directly with **RoomWizard touch screen** or from any network-based computer
- Use touch screen display to claim a space or to change your reservation
- Use with **Microsoft® Outlook®** and **Lotus Notes®** or use with the RoomWizard scheduling application
- Display shows the room's schedule and meeting information

An empty room does not always mean it's available.

Have you ever started a meeting in an empty room only to learn that another group has it scheduled?

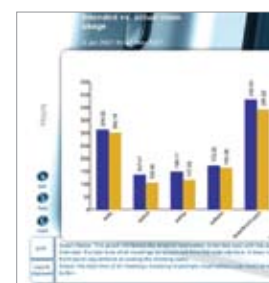

The RoomWizard™ simplifies meeting room reservations and communicates room availability. RoomWizard room scheduling technology increases utilization, eliminates scheduling conflicts, minimizes interruptions and saves time.

Save space, time and money

- **Identifies** room, users and schedule
- **Syncs** easily with calendar software
- **Lights** signal room availability; perfect for finding an impromptu meeting space
- **Reports** room occupancy and reservation patterns, then generates reports to provide valuable insight into space utilization

occupancy indicator

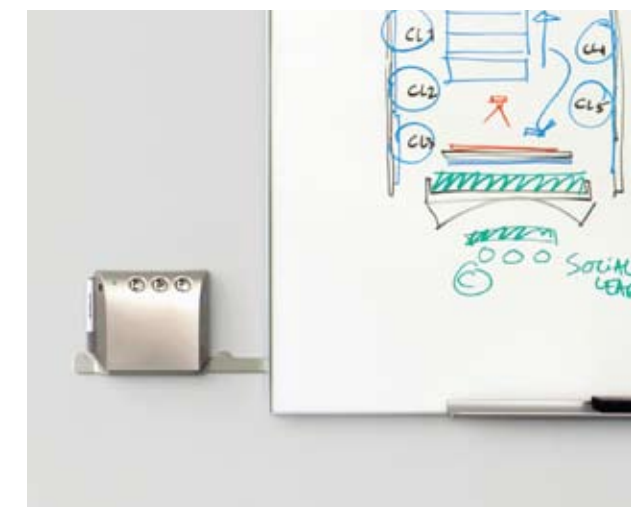

room utilization report

One-Click Publishing™

When used with Steelcase's CopyCam®, One-Click Publishing enables you to email whiteboard notes to all attendees in three simple steps:

1. Use RoomWizard to schedule a meeting time and location, and to invite attendees.
2. Create and capture notes and sketches with CopyCam.
3. With the touch of a button, RoomWizard compiles notes and automatically emails them to each attendee. Notes appear exactly as in the meeting, retaining information in its original context.
